### PT Treatment Observation:

At Excel Physical Therapy, we are committed to professional education and the continual improvement of quality physical therapy treatment. Observation of PT treatment is required for both licensed PT's and PT assistants in a specialty program as well as those applying to accredited PT and PT assistant academic programs.

By checking "Yes" below, you will allow the observation of your physical therapy treatment by a post-doctoral resident, intern, or job shadow student when accompanied by the attending physical therapist. You understand that relevant verbal and written information may be disclosed to the observer at the time of treatment. Observers are legally bound by the same confidentiality and non-disclosure policies and laws as Excel Physical Therapy employees.

If at any time during your treatment you wish to withdraw permission for observation, please advise the attending physical therapist or let the front office know when you are checking in for your PT appointment.
